Dear Antonio,

Please inform the Mayor I am sending all my emails , evidence and concerns to NBI and charging Mayor Garcia with corruption over this matter.

If she is indeed all about upholding the laws of the Philippines then she would be taking serious action against Smith for his violations.

That she has not done so will cost her , her career, and that Antonio, I can pretty much promise you.

I suggest you contact ex Mayor Cho Sitoy of Cordova Cebu and ask her what happens when you try to get corrupt with me, well she will tell you even though your father is the PLLO Secretary appointed by Duterte himself, Mead will drag your sorry self to a corruption hearing at the Ombudsman of the Visayas.

Trust me Antonio, Janette is making one huge mistake in this matter.

Regards

G D Mead.

Dear Mr. Geoff Mead,

Good day! This is in response to your email. Mayor Janette is very busy with the programs, activities and other engagements promoting the general welfare of the municipality. With regards to your conflict with Mr. Smith, she's out of that since it is your personal conflict with him. Mayor Janette said that as the Mayor of the Municipality of Talibon she is very firm with her stand and that she is and will always be abiding by the law of the Philippines. Thank you very much sir! Have a great day ahead!

Dear sir,

I immediately request confirmation that Mayor Garcia told Mr Brian Smith, in person and directly that she considers me to be --quote, a nutjob who was laughed out of Talibon Municipal Hall by all the staff therein , AND that all my complaints about his activities are baseless and no one in your office considers me to be honest or credible and that he is exonerated from all the allegations against him and he was told this on Wednesday 21 June personally in Mayor Garcia's office by the Mayor herself.

I formally demand notification of these statements as spoken by Brian Smith in his YouTube videos.

This is highly slanderous and defaming and if this is not 100% verified as true by your office within 24 hours I will be contacting several law enforcement agencies including Talibon Pulis to have Smith immediately charged with criminal cyber libel and slander, not only against myself but the staff at your office. If Mayor Garcia actually said these things to Brian Smith, in her office and to his face please inform Mayor Gracia legal action will be commenced against her immediately for slander and libel so I suggest you reply to me within a very short time.

Regards,
Geoff Mead.

Why ?

Ken
obviously the catching her out with the Polytechnic contract?
As Chairman of the Board she was also his amigo--he said that is how it all came about, getting free labour as the Mayor and he were pals but the contract is between his YT Channel which is a fraud owing a fortune in taxes to both the US and the PI.
I outlined that and she being responsible and being his pal.
I think she is trying to cover all that up???
cheers

Yes, they all work together covering each other's butt.
Maybe stirring the pot will cause her to cut the FFF loose
If that happens it will be a small victory of sorts.

BTW
Ian has done some research and the FFF claims to have 6.9k videos.
Yet Ian can only find 4.7K videos.
Based on that, there are about 2,3k videos missing or have been made Private.
Finding out which ones, is going to be difficult or even impossible.
Ian is trying to find a way of identifying them, with no luck so far.

Feeling much better today, I guess the drugs are kicking in 😊

Been out to check on some jobs but 2 hours later I had to have a Poppa Nap 😊
